

CEO Bio

With an international, cross-industry record of positively disrupting technology, **David Baker** represents the future of transformational corporate leadership. His keen entrepreneurial edge has driven rapid, enterprise-level change in organizations that range from start-ups (like the two he founded and sold) to Fortune 500 companies.

At the core of **David**'s professional ethos is a true passion for innovation - he was named 2017's "Innovator of the Year" by **Business Journal** - and a lifelong fascination with gadgets that he's translated into success as a master technology strategist.

In October of 2016, **David** joined **Pacific Dental Services** with the mission of leading the company's Information Technology teams through their ambitious digital transformation goals. As Senior Vice President and Chief Information Officer (CIO), he's focused on: 1.) stabilizing the company's core IT services to ensure operational excellence; 2.) providing seamless scalability as the company grows; and 3.) implementing continuous innovation to ensure that **David** stays ahead of the technology curve.

Named one of Computerworld's Premier 100 IT Leaders in 2016, **David** has proven expertise in developing and leading world-class teams in building stable and scalable digital infrastructures. His remarkable ability to build, sell and implement complete digital experiences aligned with business needs has made him a sought-after speaker and interview subject.

When he's not pushing the limits of healthcare technology, **David** still enjoys geeking out with gadgets as much as he did as a kid. But these days he also loves spending time with his wife and three sons on the ski slopes and sampling California's wonderful cabernets... just not at the same time.
